Mail Service Timetables 1950

The following timetables are taken from a postmark collection, acquired by the author, which was laid out by mail routes. Two example sheets from the collection are illustrated inside the front and back covers, but this collection has since been dispersed. Sadly there is nothing to indicate the name of the original collector but, in view of the detail, it seems likely that he was working in the Gold Coast Mail Service at the time.

Many of the postmarks recorded as being in use in 1950 are missing which suggests that the timetables are for some, rather than all, of the routes in use: it is nevertheless an impressive list.

In the original, the heading for some of the services consists of more than just the first and last stop. There is no duplication and so these have all been shortened to the first and last stop only.

Comments additional to the original text are in italics and an index has been added to make it easier to use.
