

## Pan American Airways Route 8.

The LATI substitute "O" service, May to October 1942 and 1943.

Route 8 was interleaved with Route 7 and carried the "LATI substitute" mail service across the South Atlantic during the summer months, nominally May to October, when mail between New York and Foynes via Botwood (FAM-18) was being flown by other Boeing 314 aircraft.

Route 8 flew the clockwise route to Lisbon and back to New York on the following path:

New York – Bermuda – Horta – Lisbon. The return to New York was Lisbon – Bolama – Fisherman's Lake – Natal – Belem – Port of Spain (Trinidad) – San Juan – Bermuda – New York.

In common with Pan American practice, the outward flights to Lisbon were designated as odd numbers beginning with 8001 and the return flight from Lisbon to New York carried even numbers beginning with 8002.

The flight numbering continued from year to year as can be seen by the summary timetables. The very first flight was 8001 which left New York on the 11<sup>th</sup> of May 1942, returning via the southern route from Lisbon (8002) on the 18<sup>th</sup> of May. The last flight of 1942 was 8023, leaving New York on the 12<sup>th</sup> of October, returning (8024) on the 18<sup>th</sup> of October.

Flights 8006, 8008, 8010 and 8012 stopped at Bathurst (Gambia) on their southbound trips to off-load European mail destined for South America, for censorship there or interception and return to London.

The flights began again in 1943 but there was no flight 8025 since there was an aborted trip, number 12001/12002 on the 13<sup>th</sup> of June 1943, which flew the clockwise route New York – Bermuda – Horta – Lisbon – Bolama – Fisherman's Lake - Natal, at which point it was re-designated as 8026 and carried on to New York via Belem – Trinidad – San Juan – Bermuda, arriving back in New York on the 21<sup>st</sup> of June 1943.

The last flight on Route 8 should have been 8041, but the Pan American Operations Manager changed the schedule, with the result that on the 19<sup>th</sup> of October 1943 flight 7039 flew from New York to Lisbon via the anti-clockwise route, then diverted to Foynes where it was re-designated as 8042 and returned to New York via Lisbon – Bolama – Fisherman's Lake – Natal – Belem – Trinidad – San Juan – Bermuda – New York, arriving there on the 31<sup>st</sup> of October 1943 after a very long trip. Therefore 8041 did not exist.

8042 was the final flight of Route 8. In May 1944 a new combined "LATI substitute" route was opened, designated Route 12. See the Route 12 section for details. Note

however that this “new” Route 12 began with flight 12003, taking up the sequence from the aborted 12001/12002/8026 flight in June 1943.
